We keep agility at our core. Uniquely positioned to provide you all the resources and capabilities of even the largest third-party logistics (3PL) companies, Suddath takes things to a completely new level with a commitment to being the most flexible and responsive provider in the industry. Large logistics providers have limitations on how they are willing to do things and try to put unique customers "in a box." At Suddath, our process starts with questions to help us understand your unique challenges leading to customized solutions catered to your unique requirements.

# Innovative Technology for More Visibility and Better Outcomes

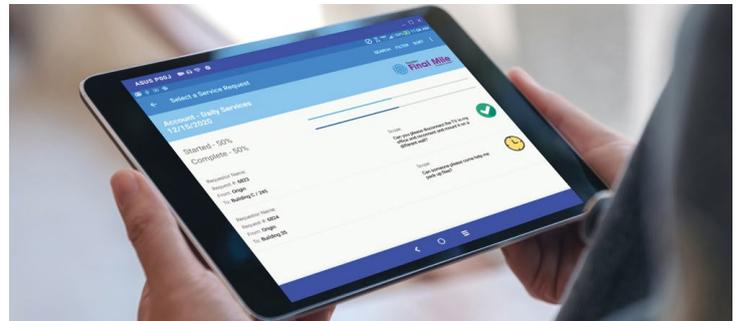

## FF&E Visibility & Control

Struggling to know where your products are and when they will arrive? Suddath created [SiMPL™](#), a game-changing application based on customer needs to give you visibility to monitor your manufacturing and logistics supply chain with access to details on various stages of manufacturing and information on shipping, consolidation, kitting, delivery and installation to ensure timelines are protected and deadlines are met.

## End-to-End Final Mile Visibility

Left in the dark on the status of your décor and equipment installations? Recognizing the need to digitally track every aspect of the last mile and installation process Suddath created the award-winning [Tracker Last Mile](#) application providing access to scheduling information, inventory control, quality checklists, digital photos and service acknowledgments on all of your restaurant FF&E projects.

# Repeatable Solutions Anywhere You Need Us

Are you spending too much time creating a unique solution and budget for multiple projects in different locations? Execute successful restaurant openings, rebrands or refreshes around the nation with Suddath designing a consistent, repeatable solution. With more than 35 owned locations across the country to help you avoid “middle-man markups” and an extended partner network, Suddath has the unique ability to provide repeatable value-added national and global solutions.

We support McDonald’s on store openings, remodels and technology rollouts across the nation. Learn more about our McDonald’s FF&E logistics program.

## SEE HOW SUDDATH PROJECT MANAGED MCDONALD’S NET-ZERO ENERGY PROJECT

McDonald’s recently opened a net-zero energy restaurant with Suddath managing vendors, warehousing and final-mile delivery. Using an integrated approach, Suddath delivered services through our asset-based warehouse and our extended network partners to provide a complete solution for the fast-food chain. Although complicated by the COVID-19 pandemic, Suddath tightly managed the project with real-time visibility and control through cutting-edge technology. Ultimately, contributing to an on-time and on budget opening.
