

VIRTUAL MOVE ESTIMATE

CONVENIENT VIDEO SURVEY OPTION FOR BUSY EMPLOYEES

The most precious resource we all have is time. Planning a move between work and family commitments can add to the stress of what may be a time-consuming process. It is our goal to be the easiest company to do business with, that is why Suddath® provides the best tools to avoid adding any undue stress during a move. Enter the virtual move estimate. No matter where in the world your employees are located, Suddath provides simple, convenient and efficient video surveys to meet busy schedules.

Never Sacrifice Convenience for Accuracy

Our virtual move estimate and chat tool seamlessly guides employees through an in-home survey, providing more convenience, transparency and protection. The survey captures the same detail as an in-person survey would, including the condition of belongings at origin, residence accessibility and accurate packing counts; all while still maintaining the personal touch with employees.

We Understand the Importance of Security

We take our clients private data very seriously. Each video is encrypted before storing it on AmazonWeb Services (AWS) cloud server storage in the US. Additionally, videos and personally identifiable information (PII) data are stored separately from one another.
